

Chapter 1

Visual Testing

1.1 Section

Definition 1.1.1 (term)

This is a definition! Terms are underlined.

Problem 1.1.2

This is a problem. These should motivate each section.

Exercise 1.1.3. Exercises are like problems, but come at the end of a section to motivate learning. They have solutions.

Theorem 1.1.4 (important white guy)

Theorems are also “top-level” boxes that stand out.

Lemma 1.1.5 (less important white guy)

As the results get less important, the colour fades from purple to blue.

Proposition 1.1.6

Propositions are the least important, so get blue. It’s giving Bootstrap infobox.

Claim 1.1.7. Claims are unimportant.

This is the top of the next page.

Corollary 1.1.8. Corollaries are styled like remarks but with the blue-purple result colour.

Remark 1.1.9. This is something that is obviously true but detached from a result, so they don't get a cool result colour.

Example 1.1.10. Examples are self-contained, and act like remarks.

Conjecture 1.1.11

For the one time a conjecture shows up in a course.

1	one inch + \hoffset	2	one inch + \voffset
3	\oddsidemargin = 0pt	4	\topmargin = -20pt
5	\headheight = 15pt	6	\headsep = 7pt
7	\textheight = 650pt	8	\textwidth = 469pt
9	\marginparsep = 10pt	10	\marginparwidth = 59pt
11	\footskip = 30pt		\marginparpush = 5pt (not shown)
	\hoffset = 0pt		\voffset = 0pt
	\paperwidth = 614pt		\paperheight = 794pt
